[Tableau: Profile - olajide. adebiyi](#) | [Tableau Public](#)

A dedicated and results-driven Data Analyst and Inventory Officer with a strong track record of achieving project objectives by transforming complex data into actionable insights. I am committed and skilled in leveraging data analysis techniques to optimize decision-making in inventory management and in delivering data-driven solutions that support organizations growth and operational excellence.

EDUCATION

B.ENG.: Industrial and Production Engineering

August 2023

FEDERAL UNIVERSITY OF TECHNOLOGY, AKURE

EXPERIENCE

JUNIOR DATA ANALYST

REDS AND GREENS AGRICULTURAL LIMITED

October 2023 – April 2024

- Collaborated with the inventory team to optimize stock availability and ensure timely access to inventory using Odoo and Microsoft Excel, resulting in a 10% reduction in stockouts.
- Partnered with the procurement manager to strategize stock purchases and implemented ABC analysis, enhancing inventory management and improving procurement efficiency by 15%.

INVENTORY DATA ANALYST

CRISPYHONEY.

January 2022 – April 2024

- Developed and maintained a robust inventory tracking system, improving data accuracy and saving over 15 hours monthly on manual stock reconciliation.
- Collaborated with sales and product teams to analyze inventory turnover and align stock levels with customer preferences, enhancing operational efficiency and driving a 12% increase in demand for high-performing products.
- Implemented data-driven demand forecasting techniques, reducing excess inventory by 8% and ensuring consistent stock availability across production cycles.

VOLUNTEERING

DATA ANALYST

PIONEER MEDICAL INITIATIVES (PMI)

June 2023 – Till Present

- Accurately processed an average of 200 patient records daily on Google Sheets, ensuring data integrity and supporting informed decision-making for healthcare initiatives.
- Analyzed trends and patterns among rural patients, leading to the development of data-driven outreach strategies that improved healthcare accessibility for underserved populations.
- Presented analysis to local health authorities, influencing healthcare policies aimed at enhancing patient care in rural areas.

GODLYBRAIN'S CLUB TEAM LEAD

January 2022 - August 2024

- Mentored and trained a team of 15 members, resulting in a 20% improvement in personal development activities and a sustained reading culture within the club.
- Led initiatives that improved academic performance, with 100% of members consistently completing monthly book assignments, leading to a 15% increase in academic engagement and performance.
