## SUMMARY

- Attention to details, critical thinking skill and decision making.
- Ability to multitask and complete tasks before deadlines.
- Excellent usage of the data analysis process and tools.

## EDUCATION

**3MTT program** **October 2023 - December 2024**

**ALX AFRICA** **August 2024 - December 2024**

## WORK EXPERIENCE

**Cisco Learning projects** **October 2024 - November 2024**

- . Participated in multiple projects using data analysis processes in solving problems and aid decision making.
- Sale datasets were collected, cleaned, mined, analyzed, visualization tools like tableau, power BI were used to visualize and provide insight into the data.

### Capstone Project

. Healthcare dataset was used to uncover insight into a patient's medical history, regional location, and most diagnosed diseases. Bar chart, pie chart, bubble chart were created to provide insight, and a dashboard was built combining all the charts.

## VOLUNTEER ACTIVITIES

Participated in a knowledge showcase which solved a problem that was identified in a school. There was a diarrhoea outbreak, students' medical history was collected and information from the school cafeteria were gathered. A dataset was created, using microsoft excel for the analysis, insight was provided which helped the school management in decision making.
